Playground partners

Clouds of Hope, a nonprofit organization, is partnering with the city of Temple Terrace to raise money to build a playground at Riverhills Park.

A rendering has been completed of the playground. Riverhills Elementary students will use it on school days. The community park and play area will be open to the public after school and on weekends.

Information about the playground fundraising effort was distributed early this month at the Temple Terrace Junioresettes' annual Easter egg hunt.

The organization cares for families with children with life-altering illnesses.
