Tampa, FL 33617

Dear Allie and family,

On behalf of *all* the patients and families of All Children's Hospital Specialty Care of Tampa, we would like to thank you for working so hard to raise money for a new puppet. Daisy is so happy to have a new friend here at the clinic to play with.

Daisy and Donald are so lucky to have a special friend in you, Allie. As you know visiting the doctor can be scary for children, and having a chance to play and learn with the puppets can help. Now that we have two puppets children will have more opportunities to play and learn about what their experience can be like here at the clinic.

Thank you, not only for raising money for *A friend for Daisy* but for hosting the welcome party. It was a lot of fun having you and your family here. It was a chance for everyone to meet Donald and enjoy learning about how the puppets help children have positive moments during their hospital and clinic visits.

From everyone here at the clinic, we thank you again for working so hard and wish you a wonderful school year!

Sincerely,

Michele Suarez, BS, CCLS
Child Life Therapist
All Children's Specialty Care of Tampa

Nancy Hillgruber, RN
Outreach Supervisor
All Children's Specialty Care of Tampa
